Commissioner for Patents  
P. O. Box 1450  
Alexandria, Virginia

Sir:

This communication is responsive to the Office Action of  
December 28, 2004.

In the Office Action the Examiner indicated that the present application contained several patentably distinct species and demanded to elect for further prosecution a single species of the present invention.

With the present communication, applicants have elected for further prosecution Species II.

In connection with this, it is respectfully requested to prosecute claims 11-17 and 19-25.

If a generic claim is finally held allowable, it will be requested to allow all claims related to other species as well.

Consideration of the present application on the merits and its allowance is most respectfully requested.

Should the Examiner require or consider it advisable that the specification, claims and/or drawings be further amended or corrected in formal respects in order to place this case in condition for final allowance, then it is respectfully requested that such amendments or corrections be carried out by Examiner's Amendment, and the case be passed to issue.

Alternatively, should the Examiner feel that a personal discussion might be helpful in advancing this case to allowance, he is invited to telephone the undersigned (at 631-549-4700).

Respectfully submitted,

  
Michael S. Striker
